INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.	
PCT/US02/35665	

I.	Basi	s of the report		
1.	With	regard to the elements of the international application:*		
	\boxtimes	the international application as originally filed.		
	\boxtimes	the description:		
		pages 1-26 as originally filed		
		pages NONE , filed with the demand pages NONE , filed with the letter of		
	\square	the claims:		
	كع	pages 27-36 , as originally filed		
		pages NONE, as amended (together with any statement) under Article 19		
		pages NONE , filed with the demand		
		pages NONE , filed with the letter of		
		the drawings: pages 1-10, as originally filed		
i		pages NONE, as originally filed pages NONE, filed with the demand		
		pages NONE , filed with the letter of		
		the sequence listing part of the description:		
		pages NONE, as originally filed		
		pages NONE , filed with the demand pages NONE , filed with the letter of .		
2.	Witl	regard to the language, all the elements marked above were available or furnished to this Authority in the		
	lang	page in which the international application was filed, unless otherwise indicated under this item.		
	Thes	e elements were available or furnished to this Authority in the following language which is:		
		the language of a translation furnished for the purposes of international search (under Rule23.1(b)).		
		the language of publication of the international application (under Rule 48.3(b)).		
		the language of the translation furnished for the purposes of international preliminary examination(under Rules		
		55.2 and/or 55.3).		
3.	With	n regard to any nucleotide and/or amino acid sequence disclosed in the international application, the national preliminary examination was carried out on the basis of the sequence listing:		
		contained in the international application in printed form.		
	H	filed together with the international application in computer readable form.		
	H	furnished subsequently to this Authority in written form.		
İ	H			
	H	furnished subsequently to this Authority in computer readable form.		
	لــا	The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.		
	\Box			
	ш	The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.		
4.	\boxtimes	The amendments have resulted in the cancellation of:		
		the description, pages None		
1		the claims, Nos. None		
_		the drawings, sheets/fig None		
5.		This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**		
* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17). ** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No. PCT/US02/35665

V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement							
1. STATEMENT							
Novelty (N)		4, 6 and 8 1-3, 5, 7-37 and 39-46	_YES _NO				
Inventive Step (IS)	Claims Claims		_YES _NO				
Industrial Applicability (IA)	Claims Claims	1-46 NONE	_YES _NO				
2. CITATIONS AND EXPLANATIONS Claims 1-3, 5, 7-37 and 39-46 lack novelty under PCT Article 33(2) as being anticipated by Wu (4,959,760). Wu discloses light equipment for an eyeglasses which comprises a rim frame for holding a pair of lenses, and a pair of temples connected to each end of the rim frame and a pair of removable light device attached to the temple. Claims 4, 6 and 8 lack an inventive step under PCT Article 33(3) as being obvious over Wu (4,959,760) in view of Rosenwinkel et al. (4,283,127). Wu discloses light equipment for an eyeglasses which comprises a rim frame for holding a pair of lenses, and a pair of temples connected to each end of the rim frame and a pair of removable light device attached to the temple. Wu does not disclose the light device is LED. Rosenwinkel et al, however, discloses that the light device is LED. Because Wu and Rosenwinkel et al are both from the same filed of endeavor, the purpose of making the device lighter and saving energy as disclosed by Rosenwinkel et al would have been obvious, therefore, at the time the invention was made to a person having skill in the art to construct the eyeglasses frame, such as the one disclosed by WIJ, with the lighting device is LED, such as disclosed by Rosenwinkel et al for purpose of making the device lighter and saving energy. NEW CITATIONS ————None							
Form PCT/IPEA/409 (Box V) (July 1998)
